WESTBAR TOWER

Other than the towers AXIS have on site currently we have also looked to develop other high rise concepts for clients such as this 30 storey mixed use scheme for ASK developments, incorporating a micro apartment called 'Abito' and a hotel. Prefabrication is a key aspect of the approach of this client which led us to develop a controlled palette of elements but still achieving a dynamic and varied design.

Value : £40m

Client : ASK Developments

Status : Feasibility

Location : Sheffield

Sectors : Commercial / Residential / Mixed Use /
Leisure

Size : 22,000m²

Key Staff : Ben Otter
